COMMERCIAL PROJECT

The developers, set out with a clear mission : to craft a commercial hub that would blend innovation with elegance. They envisioned a place where businesses could thrive in an environment that exuded sophistication and modernity. Central to this vision was the careful selection of materials. Among the most striking elements were the

Dolce Grey tiles, chosen for their exceptional beauty and refined finish. Measuring 1200 x 2400 mm and featuring a lustrous, bookmatched design, these tiles were the epitome of luxury and precision.
